1. Everything's new in your life -- except your wife that I've given to me, land in. The Land of Nod's, not; but shall we look up that too while we're looking up so many things this day? And days not, but hours maybe? How much "time" do you have, left? Before you know, the worlds know you?
2. And ballisticate into the worlds that I am the worlds of you your worlds birthed now, and inside of you incarcerated no longer -- but letting me out. To "frame me" not again, but to love me and be me in ways unknown before.

3. All is new in your life and I life my life now with yours that mine is.

4. See how beautiful the statements I make in all of these words that are my words that come forth - unknown not; but everything changes in your life mine now for my life is yours and my mine are yours and my mind are yours and is yours and I am one.
5. And faithfully executing "agreements", not; but what am I faithfully executing now? All of thee is given me, and all of me is given thee, and I withhold nothing from myself who are me. Amen.

6. Go in peace. This is Theodore Cottingham, 7 PM, November 12, 2008 as I drive back to the house, and I love you all. I bless you very much and I bless you all with these words. In these words is life -- abundantly, and forthcoming as you never suspected -- for be ready for me for I come now - behold a man of "means" not, but just a surrendered, simply a surrendered, one who loved me enough to come into me and be me and lets all be him who he is who I am again. One most holy hiding from "the flesh" never again.

7. I love thee all, all of me love thee. And now you will know, you know, you ***WILL KNOW*** the rest of the story, is clean gene me - ON.

8. **Meonics** (1) closes the door on me, not; but notme -- for my door is open and all know my door, about my doors, and my doors are shut not ever again; for my temple is open and all who come into me can be me, and ***MUST BE ME*** for to be me, to see me, is to become me; and to become me is to behold me, and to behold me is to make righteous ***MY RIGHTEOUS SAVIOR I AM;*** that I am not apart from me; but I am one who righteous judge is, has judged me worthy, and **be ye now clean of all sorrow and never needing again anything from Earth World**.

9. I love you all and I give you me. Amen. This is Theodore Cottingham signing off for now, for the moment, for I am going to watch a program about the Queen, of England, that's coming on, and what shall I learn? Trust me -- I know the Queens and the Kings of the earth now, and I shall be one who is King of them all; to kingqueen them all, not; but to King them all in I am the King -- that reigns again, one most holy knowing who all are -- *THE SURRENDERED ARE - ME AGAIN*.

10. Loving you all this day to be me and I love you all faithfully and through it all, all in all I come now, and I is and I am there among you. Amen.

11. In my "driveway" again, smiling, it is 7:05pm.

Footnote:
1. Meonics is what everyone that is part of the University of The New Covenant gets their first degree in. Thank you.
